SPRINGFIELD MUTUAL
HEALTH INSURANCE COMPANY.
SPRINGFIELD, MASS.
GEO. H. NORMAN, Agent.

THIS institution is conducted on the mutual principle, so far as to admit the parties insured to an equal participation in the profits of the company.

It insures to male and female persons between the ages of fifteen and sixty years, a *weekly* income at the rate of 100 per cent, upon amounts *annually* deposited; in cases of disqualification for business by reason of sickness or accident. For instance, a person paying $5 a year, insures to himself $5 (or 100 per cent.) for every *week's* illness within that year. These benefits are independent of whatever dividends may annually accrue to the insured.

The rates of annual payments by the members are as follows:

$2 60 per Annum, draws	$2 00 per week,		
3 00 " " "	3 00 " "		
4 00 " " "	00 " "		
5 00 " " "	00 " "		
6 00 " " "	00 " "		
7 00 " " "	7 00 " "		
8 00 " " "	8 00 " "		

Persons desirous of providing against protracted sickness, and who will except the first week, will be taken 25 per cent less, viz:

$1 50 per Annum, draws	$2 00
2 25 " " "	3 00
3 00 " " "	4 00
3 75 " " "	5 00
4 50 " " "	6 00
5 25 " " "	7 00
6 00 " " "	8 00

The main design of this company is to enable prudent and discreet persons of small means, to make provision while in health, by a trifling outlay, against the aggravated sufferings that inevitably invade a sick bed, in seasons of pecuniary privation and of inability to labor. A vast amount of human wretchedness has been prevented or mitigated, within the present generation, by the establishment, in Europe, of similar provident institutions: and within a short period, this system of Health Insurance has been introduced into our own country, with results, thus far, equally beneficial to all whose relief it contemplates—more especially to those who toil daily for their daily bread, and to whom any interruption by sickness becomes a serious and distressing calamity.

By this system, also, one person may insure the health of another—a parent that of a child, or a child that of a parent—an employer that of a workman, or of an apprentice, &c. Thus, those who are able, by a small immediate investment, may relieve themselves from the hazard of incurring heavy burthens, inflicted involuntarily by those who might otherwise become dependants upon them for continued care and support.

While the most humane and benevolent dispositions of mankind are subserved by every association of this description, its beneficiaries are exempted from being placed in the degraded condition of recipients of the bounty of others. For, by the contract into which they enter, they purchase and fairly earn all the benefits which they may demand, as a matter of just and legal right; and, if it so please Providence that they escape the affliction against which they have so measurably provided, the satisfactory reflection is left, that the price of their own immunity has been applied to the comfort and succor of their less fortunate fellow beings.

It is presumed that no extended argument can be required to recommend the objects of this Company to public consideration. A perusal of the Rules and Regulations adopted by the Directors, which may be had at my office, will afford an ample insight into the principles of the Institution, and of its modes of operation.

The Daily News.

NEWPORT,

BY CRANSTON & NORMAN,

127 THAMES STREET.

WEDNESDAY MORNING, JAN. 14, 1852.

☞There is something peculiarly mournful in the death of the young.—When we see aged persons who have attained the fully allotted period of human existence, depart from the earth, although we deeply mourn the loss, and would gladly avert the fate which bears them from the stage of living nature,—yet our emotions are far different from those which thrill us, when the young, the lovely and the beautiful die. When the aged go hence and are no more, we feel that it is all according to the ordination of God, and that they have passed through all the rounds of life, and reached that extreme period when we are taught that all *must* die. They have passed the buoyancy of childhood, the animation of youth, the solidity of matured years, and the reflection of age; they have seen life in all its phases, they have tasted alike of the pleasures and sorrows of earth, and they have learned that humanity has no exemptions from the curse imposed upon original sin,—and they are satisfied that the eternal soul must repose its hope upon a Power above and beyond earth. They have, in a measure, become weaned from all that surrounds them here, and have learned by experience to look upwards to God. Time, while it has shadowed their brows and furrowed their cheeks, has also taught them the folly of earthly dependencies, and they have gradually learned to transfer their affections from earth to heaven. They have reposed confidence here—they have builded hopes upon earthly foundations,—and they have seen the one betrayed and the other demolished so often, that a wise experience has taught them that earth has no treasure which time will not destroy, and humanity no pleasure which death will not blight. Therefore, there is philosophy in age, there is wisdom in years, there is a valuable lesson in long experience, which impart knowledge to all, and teach us to regard the death of the aged as something which *must* be.

But ah, it is different when the young die. It is hard, it is indeed hard to stand by the death-bed of a fair young manhood. There is something in the scene which palsies the heart, and unnerves the sternest manhood. It starts tears from eyes unused to weep, and it unlocks the spring of deepest feeling which has never yet emitted so copious a gush as is lavished on such an occasion. We see a young lady, animated by all which is attractive to her in the world, whose heart is light and whose hopes are buoyant and bright,—who is just emerging upon that stage which is arrayed with all which is dazzling and fascinating, surrounded by all which is enchanting and beautiful,—who knows and feels no guile, and consequently sees no evil in others,—who looks upon life as a kaleidoscope of continuing beauties,—who feels no pain because she knows no evil and inflicts no wrong, whose heart is all goodness, whose actions are all pure, and whose thoughts are all gentle,—oh, to see such an one transferred from the joyousness of health and the gayety of active life, to the suffering of violent sickness and the solemnity of the bed of death,—is enough to unmove the sternest heart, and to arrest the attention of the most enthusiastic devotee of pleasure. But after all, such a scene is profitable, for here we learn life's severest and most salutary lesson. Here we actually behold the great uncertainty of life; the practical lessons which the Bible teaches, and not the theoretical doctrines which are preached; the imperative warning of the real angel of death, and not the oft-repeated counsel of the holy ministers of Christ. Here all is real, and not metaphorical. Here God speaks forcibly to us by His act. Here life is disrobed of its folly, and death appears to us in all its stern and unyielding solemnity, warning the young especially, that life is suspended by a precarious thread, and that there is but a step from the gorgeous display of earth, to the dark, the silent, the impenetrable grave. Here we witness the vanity and feebleness of all human skill; science is baffled, and the most extensive experience, the most profound erudition, and the most assiduous attention cannot arrest the progress of disease, or stay the hand of the most insatiate destroyer of our race. Here we learn the shortness of life, and here we are forcibly impressed with the conviction that the great duty of our existence and the prominent thought of our minds should be to prepare for this last hour, when all human aid fails, and when the soul must trust alone in the Power which is above and superior to earth. We may have been thoughtless hitherto, and acted upon the common false maxim that youth is the time for enjoyment, and that old age is the appropriate season to think of these solemn things, and to make preparations for the mysterious journey beyond the grave. But here such falasies are detected, and here, by the dying beside of youth, we are all taught the admonitory lesson that there is no tomorrow—that none can raise the veil which enshouds what is beyond the present, and that none are guaranteed a moment beyond the one so rapidly fleeing away. We are taught by observation a lesson far more eloquent and impressive than language can possibly make it; we heed not the words of wisdom, and we regard not the ablest counsel even from lips which are redolent with truth. We all *prefer*, strange as it may seem, to learn by our own experience, and to be taught by the sternest and most trying practical lessons. How much bitter anguish should we be spared, if we earlier listened to the voice of warning truth; if in our earliest years, and when all is bright and glowing around us, we would commence to school the heart and train the mind for the dark hour of affliction,—how much better should we be prepared, by a gradual process, to meet the sorrows of inheritance—the boon which our first parents bequeathed us. Instead of this, we pursue the wild error of our ways, as if life was immortal and time eternal, and human existence but one ceaseless round of pleasure, made for our benefit and to be continued for our ceaseless enjoyment. Then the stern angel of Death comes into the household, and bears away a loved one, almost without warning. Where is the heart's hope then, and to what can the soul's confidence cling? The mind is bewildered and palsied, and its first inclination is impiously to rebel against an inexorable and an inevitable doom. But if not hopelessly hardened, at such a time and in such a place, we learn the greatest lesson of life; and from that period may be dated the commencement of our full realization of the responsibilities of our situation here, and of the terrible realities which are involved in the life and death of a human being. The pride of the heart subjects us to fearful pain; and rather than experience and acknowledge a perfect humiliation, we risk our destiny beyond the grave. Go stand by the death bed of one whom you love and who is called away in life's early spring, and you will realize all, and far more even than what we have said upon this subject.

"I die in peace. May I oppose you beg" — *Henry Clay to Louis Kossuth.*

These are solemn words, from the lips of one who, standing on the very threshold of Eternity has no motive to utter a sentiment that does not spring from an honest conviction of its pure and absolute Truth. The last words of such a patriot and statesman as Henry Clay may safely be taken as the oracles of Wisdom, more sacred in their import, and more binding upon the people, than any "words of fate" ever uttered in the ancient groves of Dodona.

"'Tis the sunset of Life gives him mystical lore.
And coming events cast their shadows before."

N. Y. Mirror.

☞A letter from San Juan says the arrival there of the Saranac caused great rejoicing among the American people. The Saranac, it will be remembered, was sent by government in consequence of the insult to the Prometheus. There is little political news of interest. Gen. Monoz was at Leon.

The cost of Kossuth and his suite, at Brown's Hotel, Washington, is stated at five hundred dollars a day. *Poor Hungarians!* how prudent thy ways! how thoughtful of thy suffering countrymen at home!

☞ The Louisville Varieties says that Kossuth will one day leave us—return to his native land and tell the world what *asses* many people shew themselves by laboring to prove him an "elephant."

☞This is leap year—the year in which the ladies are to do all the courting. A delightful time for bashful gentlemen.

CAPTURE OF SUPPOSED PIRATES.—Captain Disney, of the schooner Mary C. Ames, from Porto Rico, reports that an Havana brig had been captured off Cape Rouge, on suspicion of being engaged in piracy, and that the crew were taken to Mayguez and there put in irons. The captain of the supposed pirates escaped, and the mate attempted to commit suicide.

☞ A little while since, an elderly woman entered the cars at one of the way stations, and took her seat, groaning piteously with her "rheumatiz." She regaled those around her for some time with an account of her sufferings, and declared she had tried everything for relief, but without effect. A gentleman, who had also been a severe sufferer, asked her if she had tried electricity, assuring her that it had quite cured him.

"Electricity?" said she, "ye-s-s—I've tried it. I was struck by lightning about a month ago, but it didn't do me a bit of good.

General Assembly.

JANUARY SESSION—AT PROVIDENCE.

MONDAY, Jan. 12.

SENATE.—The Senate waited until near 11 o'clock before a quorum was formed. His Excellency in the chair.—Journal of Friday, read.

Mr. Ballou moved that the Committee on Finance be instructed to enquire into the expediency of a standing committee of the Senate on State property and report. Passed.

Mr. Ballou moved that a week from Tuesday be assigned for the trial of private petitions.

Mr. Hazard objected to so long a time. We should not stay here over two weeks at most. He proposed Friday, which Mr Ballou agreed to and it passed.—The Senate then adjourned.

HOUSE.—The House was called to order at 10 o'clock, by Mr. Speaker Bosworth. A quorum was not in attendance until 11 o'clock, when the journal of Friday was read, and the House proceeded to business.

The Chair announced the following standing committee on Fisheries—Messrs. Rhodes, F. Brown, Durfee, Gavitt and Wardwell.

Communication from the Clerk of the Supreme Court, in reply to a resolution of the House passed in October, giving the amount of fees and perquisites received by the justices of said court during the year 1850, was read and referred to the Finance Committee. The aggregate of entries for the two terms, as shown by the clerk's books, amounts to $836 50.

Mr. Stead offered an Act providing for the appointment of weighers, and the weighing of cotton. Read once and referred to the Committee on the Judiciary.

Petition of Halsey C. Littlefield for leave to file petition against Samuel Dunn, was presented by Mr. Babcock, and referred to the Committee on the Judiciary.

The petition of citizens of Woonsocket, for the incorporation of a small part of the towns of Smithfield and Cumberland, to be called Woonsocket, was called for by Mr. Sheffield.

This led to a debate of some length, in which Mr. Buffum, of Smithfield, and Mr. F. Brown, of Cumberland, took part. The petition was referred to the Committee on Corporations.

Mr. Stead gave notice of a bill to legalize holidays.

The House then adjourned.

THIRTY SECOND CONGRESS.

WASHINGTON, Jan. 12.

SENATE.—Mr. Hamlin reported in favor of a marine hospital at Portland.

Mr. Seward reported adverse to the memorial of Aaron H. Palmer, relative to certain transactions with Japan, and asked a discharge from the further consideration of the subject, which was agreed to.

Mr. Shields asked to be excused from serving on the committee on public ...

Mr. Bright moved to postpone the unfinished business, and take up the resolution for printing the census returns.—Agreed to.

Mr. Smith submitted an amendment, that the committee contract in conformity with the act of 1842.

Mr. Smith is speaking against the resolution earnestly.

HOUSE.—The business in the House thus far has been of an unimportant character.

The bill defraying the expenses of the fire at the Capitol was taken up, and the amendment of the Senate agreed to.

Mr. McNair's resolution to inquire into the strength of the foundation and wings of the Capitol was passed.

BY TELEGRAPH.

WASHINGTON, Jan. 12.

Kossuth and suite left Washington for Annapolis at eight o'clock this morning. He was attended to the cars by Senators Shields and Se[illegible]d and a large crowd of citizens.

WASHINGTON, Jan. 12.

It is stated, on good authority, that Senator James, of Rhode Island, is perparing a project for a modification of the tariff, and that he will soon introduce it in the Senate. The principle features of the project are an addition of 10 per cent on iron, fabrics of cotton and wool and fine cotton, the reduction on certain manufactured articles that enter into general consumption. Many influential Democrats, of both Houses, are said to favor the project.

A LUCKY BLOW.—Sometime ago a man in London, in a quarrel with his wife, struck her a blow which sent her reeling against the mantlepiece, when out fell two guineas, rolling on the floor. A cessation of hostilities immediately took place, and a search was made for the source from which the gold came. The mantlepiece was examined and removed, and one hundred and seventy guineas were found concealed behind it.

This result should not induce any man to strike his wife, for it is not very probable that the same result would follow more than once out of one thousand times.

Is it True Ladies?—A gentleman of Boston chanced to find himself among a party of young ladies, away down East, and while in the enjoyment of a social play he carelessly placed his arm around the waist of as pretty a damsel as Maine could boast of, when she started and exclaimed, "Be done, sir, don't insult me!" The gentleman immediately apoligised for the seeming rudeness, and assured the half offended fair one he did not intend to insult her.—"No!" said she archly—"Well if you didn't, you may do so again."

A WORD TO THE WISE.—No medicine is so cheap, so agreeable to take, so safe in all cases and so certain to cure all diseases arising from an impure state of the Blood as *Morse's Compound, Syrup of Yellow Dock Root.* It has cured more than ten thousand within the past year, and still goes on dispensing health and comfort to all who use it. Try it for yourself. Sold by C. G. C Hazard.

BALDNESS CURED. The following is from Sumner F. Barrett, Saratoga Street, East Boston.
EAST BOSTON, Feb. 8, 1847.
Mr. William Bogle:—Dear Sir: For several years past, my wife has been troubled with baldness on the crown of the head, about six or seven inches in circumference. After using a great number of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion to a wash, for the purpose of restoring her lost hair; and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it oftener and more regularly, I am convinced that the growth of the hair would have been accelerated. I am, sir,
Yours respectfully,
SUMNER F. BARRETT.

BOGLE'S HYPERION FLUID.
From Dr. WINSLOW LEWIS, one of the most eminent physicians of Boston.
BOSTON, February 15, 1849.
Mr. Wm. Bogle:—Sir, the preparation invented by you for the hair has been extensively used in my family for some time, and they give it the decided preference over all other compounds of the kind.
It invigorates and beautifies the hair, and cleans the skin of all impurities, without producing any ultimate deleterious effect, which is so frequently the result of many well-known patented compounds.
Having been thoroughly tested, and its reputation fairly established as the best article known for the human hair, it may be needless, still I cannot resist the opportunity, to add to others the name of Your obedient servant,
WINSLOW LEWIS, JR.

Prof. A. C. Barry's Tricopherous, or Medicated Compound

THE efficiency of this justly celebrated embrocation for invigorating, beautifying and imparting a gloss and silken softness to the hair, is now so widely known and acknowledged, that it has gained by its merit a reputation which is not for a day, but for all time. It is the province of science to subdue and control these physical evils which refined civilization has brought in its train; for so long as warm rooms and tight hats with the combined agency of other influences exist, will thousands of unhappy victims be troubled with bald heads and grey hairs, to say nothing of the various cutaneous diseases to which the head is subjected. It was to relieve these evils that Professor Barry introduced his invaluable remedy, and among the thousand and one who have been his competitors, he now stands alone on the pedestal of success, hewn out of Barry's Tricopherous, and sustained by the favor and universal patronage of a discerning and intelligent public.—For restoring the hair to its original growth, or preventing it from falling out, this compound has been pronounced by all medical men to be a sure remedy. For eradicating scurf, dandruff, and curing diseases of the skin, glands, muscles, stings and bruises, the Tricopherous will always be found a safe, speedy, and unfailing cure; and so long as

"Fair tresses man's imperial race ensnare,
And beauty draws us with a single hair,"

will Barry's Tricopherous be essential to the toilet of every lady and gentleman who desire to give a soft, glossy and luxuriant appearance to the natural drapery of reason's throne. Sold in large bottles, price 25 cents, at the principal office, No. 137 Broadway, New York: and sold by the principal merchants and druggists throughout the United States and Canadas, Mexico, West Indies, Great Britain, France, and by R. J. TAYLOR, Newport, and J. BALCH & SON, Providence.

In grounds which are wet, they will be found doubly useful, and will answer all the purposes of vaults—which are so often made to shut out the water. If it is necessary at any time, even fifty years after interment, to remove remains, it can be done without any difficulty—for the Cases themselves will last as long as time itself.

THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we produce a medicine that would

INSTANTLY STOP THE MOST SEVERE PANGS OF PAIN,

And speedily remove its cause.

We proposed to Hospitals, and all other institutions for the reception of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to introduce

RADWAY'S READY RELIEF,

for their investigation, and to illustrate its merits and miraculous power over pain upon the patients. We claimed that it would allay in a few minutes the most severe

RHEUMATIC PAINS,
DIARRHEA, NEURALGIA, &c.
TIC DOLOREAUX,
CHILL FEVER.

That in a few minutes it would relieve the most severe pains in the bowels that in fifteen minutes it would stop all painful and irritatory discharges, and impart a genial warmth to every organ and secretion of the body, that it would positively relieve the most severe and disagreeable pains of sick and nervous headache in fifteen minutes, and effectually cure this distressing complaint.

That it would in an instant mitigate the cruel pangs of Neuralgic pains, and permanently cure this excruciating affection. That it would stop the most tormenting toothache in a few seconds.

That it would remove all rheumatic pains in fifteen minutes, and cure many Chronic case of Rheumatism in a few hours.

That it possess a miraculous soothing and relieving influence over all pains originating from Rheumatic, Neuralgic Nervous and Billious complaints, and that the patient suffering the most excruciating tortures, would feel its soothing influence in a few minutes.

The world was startled at the publication of our discovery. The wise savans of Medical Science shook their heads in doubt. The sick and afflicted hoped yet, feared that like other remedies it would cure quicker on paper than by practical experiments—thousands who were suffering with the most excruciating pains, at once determined to try it; the consequence was, that from almost every village, town, and city, within 100 miles of New York we were the daily recipients of orders for our extraordinary remedy. The people tried it and found it good; the most torturing pains were mitigated; weak and feeble victims of Rheumatism, who had been bed-ridden for years, were suddenly relieved from pain and restored to health. So with the sufferers of Neuralgic, Sick and Nervous Head Ache, Chill Fever, Diarrhea, Cramps, Spasms Cholera Morbus, and in fact all painful and distressing Acute Complaints, were suddenly relieved from their tortures and restored to health. Its fame spread from city to city; the people applauded its wonderful virtues far and wide, and ere the earth had run its yearly course,

64 DOSES

IN EACH BOTTLE.—One Tablespoonful a dose—THREE Doses a day—One bottle containing **64 doses** lasts **Twenty-One Days.**

Price $1.00 per Bottle, or Six Bottles for $5.00.

BRANT'S PURIFYING EXTRACT

Is now put up in **QUART BOTTLES,** *and is of the same medical strength and efficacy as it is in the small bottles.*

The great superiority of THIS PURIFIER over SARSAPARILLA and all other similar medicines, may in some measure be understood from the following facts: FIRST—because it not only possesses, as *portions* of its medicines, the PURE ESSENCE of

Sarsaparilla, Yellow Dock,

Cherry and Sassafras Barks,

more strongly, in the powerfully concentrated, and larger quantities of each of these purifiers in each bottle of it than can be found in any bottle of medicine, called *Extract of Sarsaparilla:*

But, SECONDLY—because **This Purifier** also possesses the medical efficacy and healing virtues of several other

Roots, Barks, and Vegetables,

the PURIFYING *properties* of which are *greatly* SUPERIOR to *Sarsaparilla,* and when these are compounded with *Sarsaparilla, Yellow Dock, Cherry, and Sassafras,* they make this medicine the most certain and active **Purifier of the Blood** *in the world.* So true is this, that to have *every desired medical effect,* the Dose is

Only **One Tablespoonful,** *three times a Day.*

But it is not so with Extract of *Sarsaparilla, for* in consequence of *its medication (in large bottles)* being so much **weakened and reduced** the Dose of Sarsaparilla has to be **Two, Three,** or **More** *Tablespoonfuls*—THREE, *Four,* or MORE *times a Day,* to have any medical effect; and as a bottle of sarsaparilla only holds *sixty-four spoonfuls,* therefore, *so many spoonfuls* at a dose, and so many doses a day, will use up a bottle of it in

Four, Five, or Six Days,

which show that a *bottle of* **Brant's Purifier,** will last from **Twelve to Sixteen** DAYS *longer* than a bottle of Sarsaparilla; and if its daily medical efficacy (in *small doses,*) be as PURIFYING and HEALING as the daily *(large doses)* of Sarsaparilla, then it PROVES that ONE Bottle of this PURIFIER is worth *Three, Four,* or *Five times* more than a bottle of Sarsaparilla.

The above comparison does not yet show the *great difference* in *value* between the *medical efficacy* of BRANT'S PURIFIER and SARSAPARILLA. This will appear by the certificates of cures in *Brant's Pamphlets,* showing that

ONE BOTTLE OF BRANT'S PURIFIER

has more efficacy, and *cures more impure blood disease,* than

TEN Bottles of Sarsaparilla.

If, then, ONE BOTTLE of PURIFIER sells for ONE DOLLAR, *One Bottle of Sarsaparilla* should sell for **Ten Cents.**

CANCEROUS SCROFULA.

Mr. J. B. HASKIN of *Rome,* Oneida Co., N. Y., who was cured of Scrofula in 1848, swore to the *facts* as related below in an action in the SUPREME COURT in the *City of New York,* on the 28th of *December,* 1848, under the following circumstances:—

A person in the *City of New York* had manufactured and vended a *spurious* article of medicine, calling it BRANT'S INDIAN MEDICINE, in *imitation of the genuine medicine.* He was *prosecuted* to obtain damages, in the Supreme Court of the City of New York, and the case was *referred* by the *Court* to J. S. BOSWORTH, Esq., an eminent Lawyer, as *Referee* to take the testimony. The defendant pleaded *in mitigation of damages,* that the Proprietors of Brant's Medicine had in some cases published FALSE STATEMENTS of *cures,* and thus had committed a *fraud* on the public, and, therefore, was not entitled to damages. The case of Mr. *Haskin* was selected as *being false,* and Haskins was sworn as a *witness* in regard to the FACTS *so published,* and his *testimony* MORE THAN SUSTAINED *the publication.*

Mr. HASKIN said, I am well acquainted with Brant's *Purifying Extract*—have used it for *Scrofula.* About three years since, I was very badly afflicted by it; I was attended by several doctors—they all told me I could not live—that no medicine could cure me. In consequence of such information, for *two weeks* before I used *Brant's Purifier,* I took no medicine. When I commenced using the *Purifier* I had been confined to my bed a long time; I could not raise my hand to my head; my *neck* was one *ulcer* in front from *ear to ear;* one ear was so eaten out around it, that it could be lifted up out of its place, it only hung by a piece at the top; a hole was *eaten through my windpipe,* so that my breath passed in and out at the hole; an ulcer was on my shoulder as large as my hand, another was under my arm equally as large, which had eaten through my side, so that my body could be looked into; an ulcer on my arm extended from my shoulder to my elbow which had eaten to the bone; I had several other ulcers also. I used *Brant's Purifier* in *small bottles,* the *first* bottle lasted *eleven days.* I was so weak I only took *two-thirds* of a spoonful at a dose; that bottle so strengthened me, as to enable me to get out of bed; the *second* bottle I took the full dose (a spoonful), which so strengthened me and healed my sores, so that I was able to walk *two miles* to the *drug store* of Bissel & Leonard, at Rome Centre, where I got the *third* bottle; this bottle HEALED ALL MY ULCERS, but *three small sores* about as large as the end of my thumb, and I then worked some at *chopping wood.* I used *Six Bottles* more, which made a PERFECT CURE, and restored me to *good health.* *FOR FULL PARTICULARS SEE BRANT'S PAMPHLETS.*

Would soon be in a Grave.

Mr. WILLIAM D. JENNINGS, a merchant at *Pierpont Centre, Ashtabula county, Ohio,* wrote to us, October 2, 1848, and stated a cure of CONSUMPTION which the use of *Brant's INDIAN PULMONARY BALSAM* had effected in Mr. WILLIAM CROCKET, of an adjoining town. He said Mr. Crocket had sought relief from the best physicians and numerous medicines, but found none, for the *fatal* hand of that unrelenting monster, *Consumption,* had taken fast hold on his vitals, and was so destroying and debilitating his body, that he was a mere skeleton. He was *given up* by his physicians and all friends, as one who would soon be *in a grave.* But even in this last extremity, strange and marvellous as it may seem, yet it is true, that the use of only *five bottles* of BRANT'S INDIAN PULMONARY BALSAM has unclenched the hand of the destroyer, and restored Mr. Crocket to health, and he is now a *healthy, hearty, rugged man!*

S. D. DANN, Esq., *merchant and postmaster at Jefferson,* an adjoining town, wrote to us about the same time, and stated that he was acquainted with Mr. CROCKET, and *testified to his* CURE, *and all the above named facts.*

Could not Live a Day longer!

Messrs. E. B. CALDWELL & CO., of *East Oswego, Oswego Co., N. Y.,* respectable druggists, wrote to us: "We have just heard, through Mr. Willeman, a respectable citizen of this place, of an important cure of *Consumption,* which BRANT'S INDIAN PULMONARY BALSAM has produced on the wife of an acquaintance of his, who resides in the town of Palermo, in this county. She had been long confined to her bed, and was so dangerously diseased, that her friends believed it impossible for her to live more than ONE DAY LONGER. But, when all other hope utterly failed, she commenced taking *BRANT'S PULMONARY BALSAM,* and its medical efficacy has raised her from a DYING BED, so that she is now *going about and attending to her domestic household affairs and duties.* She acknowledges, and it is very evident, that she is indebted to BRANT'S BALSAM for her recovery from a long, severe, and dangerous sickness; and her friends and neighbors consider that medicine invaluable!"

RAISED FROM THE GRAVE.

Messrs. PRATT & FOSTER, *merchants, of West Cornwall, Conn.,* said *BRANT'S BALSAM* had effected cures of such hopeless cases of CONSUMPTION in their town, that now no other cough-medicine could be sold there; that *it had raised some as if from the* GRAVE—some that physicians and all the friends *said* MUST DIE! One gentleman, in particular, was so far gone, that his physician told him it was *useless to take any more medicine.* He then, *when no hope was left,* began to take BRANT'S BALSAM—GOT WELL—*and is now as well as ever he was!*

Many Consumptions Cured.

Mr. S. H. CLARK, merchant, *Clyde, Wayne county, N. Y.,* wrote to inform us that BRANT'S PULMONARY BALSAM sold readily at Clyde, and said: "If the statements of some of our most respectable people, and personal, visible knowledge, can be relied on, its medical virtues have cured *many consumptive persons,* several of whom I am acquainted with, who were so hopelessly sick as to be considered, by physicians and all friends, past a possibility of cure; and yet, the facts are, BRANT'S BALSAM has restored them to PERFECT HEALTH."

LUNGS BLED—MUST DIE!

Mr. Z. S. TERRY, *merchant, huron, Genesee county, N. Y.,* wrote, August 11, 1848: "BRANT'S MEDICINE is doing wonders here. It has cured a man of *Consumption* that all the physicians had said *must die.* When he commenced taking Brant's Medicine, he could not raise his hand to his head; he *bled at the lungs,* and every symptom seemed to indicate that he must die; but, astonishing to all, he is now able to labor, and rides all over the county. He used *only five bottles.* It has also cured a young lady of *Consumption* in Orleans county, which her father *says no doctor could cure.*"

Mr. MILLER, a merchant of the same place, has certified to the truth of the above statement.

Was believed past Cure!

Mr. CORNELIUS H. SMITH, merchant, *Collins Centre, Erie Co., N. Y., January 16, 1848,* said: "Your BRANT'S INDIAN PULMONARY BALSAM and BRANT'S PURIFYING EXTRACT are nearly all sold, and I want immediately another supply, for they sell more rapidly, and give better satisfaction, than all the other medicines we have for sale. The *Pulmonary Balsam* has raised a lady here from a bed of dangerous and severe sickness, which all the doctors had given up as INCURABLE. They said she MUST DIE with a *Consumption of the Lungs.* After all had pronounced the case HOPELESS, she commenced taking *BRANT'S BALSAM*—and now she is well."

CHRONIC DYSENTERY,

and SUMMER COMPLAINTS, in *children or grown persons,* cured *without any failure whatever.* Also—

CHOLERA INFANTUM.

No mother need ever mourn the death of her child by that child-destroying complaint, when *teething* in warm weather—*Cholera Infantum,* or what is called SUMMER COMPLAINT—if "BRANT'S PULMONARY BALSAM" be administered to the child. It should, however, in *such cases,* be used in *twice as large potions* as the directions on each bottle prescribe, until the complaint is checked.

LIFE ASSURANCE.

ÆTNA INSURANCE CO., HARTFORD CONN. ANNUITY FUND, **$150,000.**

Safety—Stability—Economy.

THIS long established and well known company having organised a new department for life assurance, with an entirely distinct capital exclusively pledged with its reserved accumulations for the payment of losses upon life assurance only, is prepared to issue policies on lives at rates materially reduced from those charged by the mutual companies, and as low as is consistent with ultimate safety. The system adopted by this company is to ascertain precisely what it is worth to insure a certain amount upon a life, and to charge precisely that sum and no more; and not to require a larger premium than is actually requisite for the purpose, with the promise of returning, under the delusive name of profits or dividends, the excess of premium which ought never to have been taken. It is attended with none of those vexations contingencies which are inseparable from the mutual system; it is perfectly simple as well as uniform and equal in all its operations.

Policies will be granted in the usual form, payable after death, or upon the party's arriving at the age of 40, 45, 50, 55, or 60, at his option; in either case free from the claims of creditors. The usual extra risks will be assumed by the company at reasonable rates.

JOHN H. SMITH'S RENOVATING OINTMENT AND HORSE RENOVATING POWDERS.—The author of our existence has caused to grow spontaneously, throughout the world, such vegetable properties as will at once cure, when properly applied, all curable diseases. The proprietor of these truly valuable Medicines might fill a volume with Certificates and Testimonials in favor of his articles; but, considering such puffs wholly useless, since they are so readily manufactured, and made use of to such an extent to palm off some useless trash upon the public, I shall, therefore, state at once, the various diseases that can be speedily cured by these Invaluable Horse Renovating Powders, viz:—Glanders, Hidebound, and Horse Distemper. It also carries off all gross humors, and purifies the blood. It is also a safe and certain cure for the HEAVES; it will also cleanse, at once, the stomach and maw from bots, worms, &c., and again restore the stomach and bowels to healthy action.

SMITH'S RENOVATING OINTMENT is an invaluable remedy for horses, in the cure of the following diseases: Fresh Wounds, Galls of all kinds, Sprains, Bruises, Ringbones, Poll Evil, Wind Galls, Sprains, Sweeny, Fistula, Strains. Lameness, Foundered Feet, Cracks, and Scratches.

The above articles are to be had in most of the Cities and principal Villages throughout the United States, and the Canadas.

Price, 25 cents per box for the Ointment; 50 cents for the Horse Renovating Powders.

BLISS' JENNY LIND HOT AIR COOKING RANGE.

IN presenting this Range to the public, the subscriber would call attention to its merits. He has been well convinced from his own observations that the public are in want of a Range with such improvements as will render it more perfect for all purposes of domestic utility and economy, than any now in the market. In the article which he now offers to the public for examination, he has (if he can place any reliance upon the assurance of experienced dealers in Ranges and Stoves, his customers and his own experience and observations) been successfully beyond his most sanguine expectations. The Oven is so constructed as to secure the certainty of thorough baking the bottom of all articles proper to be cooked in an oven. It is unnecessary to say to those who have used ranges, that no previous pattern has been free from defect in this particular.

All parts of this Range is double the usual thickness.

It has been pronounced by competent judges, the most beautiful and perfect in its appearance, of any Cooking Range of this country, with some advantages over many ranges that are made. I would call your attention

1st, To its general beauty and great strength of castings. Also, the quality of iron and the care and skill with which they are mounted. Also, notice the top which is so constructed as to prevent the least possible chance of breaking or burning out.

2d, The form of the fire chamber—a cylinder lined with soap-stone, or fire-brick, and known to be the best form of fire chamber in which to burn coal.

3d, Notice the front of the range closes tight, with a register in the ash-door, to give draft, which when closed makes the range perfectly air tight. Also, a new arrangement for dropping the grate from the outside, so that no dust can escape in the room.

4th, The simplicity of the arrangement; it having but one Damper, which manages the whole. Also, the convenience for cleaning the flues, and a convenient place to put the coal scuttle and a very large oven, of capacity enough to bake twelve pies. Also, a bath boiler, which can be heated by a side or back flue or a water back, and a new and improved hot-air fixture which will heat a room from 12 to fifteen feet square, with the same fire that is used in cooking. There are five sizes of these Ranges, all of them can be set with double ovens either No. 1, 2, 3 or 4, at the option of the purchaser.

ONLY $25 FOR A HOMESTEAD.

50 FARMS worth over $10,000, and 6,000 Lots, to be distributed among 800 Subscribers.

TO supply the demand for the Lots and Farms, I have laid out another tract, at LAKELAND, adjoining the Long Island Railroad and the land already sold at Hermonville, to be of the same size, and disposed of and divided among the purchasers in the same manner as those recently sold there, with 50 Farms instead of 22.

I have been induced to do this from the great number of persons wishing to purchase these Lots and Farms, as the improvements in that part of the Island are constantly increasing, and large numbers of persons have now become interested in those lands. This additional tract is in every respect equal to the other, and at the rate they are now being taken they will all be sold in a few weeks. About 600 shares are now subscribed.

Each subscriber is entitled to 8 Lots, 25 by 100 feet, lying together, or a FARM of from 4 to 20 acres. The shares are limited at $25—payable, $5 when subscribed for, $5 on or before the day of distribution, and the balance in monthly instalments of $3.

The lots are situated in the Village of LAKELAND on the Long Island Railroad, County of Suffolk, and 48 miles from the city of New York, where handsome buildings are erected, and the Railroad Company contemplate making a large depot for the termination of the early and late trains between that place and Brooklyn. It is one of the healthiest places in the United States, and within one mile of Ronkonkoma Lake, a beautiful sheet of water about three miles in circumference, of singular transparency, and of great depth, with an abundance of fish. The Village is but 4 miles distant from the great South Bay, which is 5 miles wide and 40 miles long, abundantly supplied with oysters, clams, and fish of various kinds.

These lands will produce as much per acre, with the same cultivation, as any land within fifty miles of the city of New York.

Several gentlemen of the first respectability who have lately visited Lakeland and examined the crops then growing there, declare that the wheat, rye, corn, potatoes and garden vegetables, are equal to any they have seen in any part of the country, proving conclusively that the soil is capable of producing, and that in the highest perfection, all that the agriculturist can wish or desire.

Wheat of the same quality, which grows here luxuriantly, was raised by Mr. Samuel Thompson, of Setauket, last year (about 8 miles from his place) who received for the product of a little more than two acres, $400.

Lakeland Station is located on the borders of the Long Island Railroad, whence cars runs several times a day to Brooklyn and New York.—The surface of the land is smooth and level, and the surrounding country is perfectly healthy, and within a few miles of the place, highly cultivated and valuable, having been settled for more than a hundred and fifty years, and where similar lands sell at from $60 to $200 per acre.

Apply to CHAS. WOOD, Stationer, 171 John street, near Pearl, N. Y., who will receive remittances and forward receipts therefor by return of mail. They will also gratuitously furnish maps and pamphlets of the property, and cheerfully give such other information as may be desired.

I also desire to say that I have good FARMING LANDS West of my Village Lands, which I will sell in five-acre lots and upwards, at $20 per acre.—These lands are well situated for farming and gardening purposes, in every respect: and having the advantage and privilege of Railroad, when cleared and cultivated, they will be equal to any land on the Island, and equal to that which, in the vicinity of all the old villages and settlements of Long Island, sells for $50 to $200 per acre. CHAS. WOOD,

117 John street, N. Y.
